Reference BLD-BAC-7240BAC • ISO Building & Construction

UKPRN 10067351 • Registered in England and Wales, company 4984798

AT A GLANCE

REFERENCE	BLD-BAC-7240BAC
AWARD	Certificate
ASSESSMENT	300 marks — 180 to pass (60%)
PREREQUISITES	None
VALIDITY	Lifetime
AWARDING BODY	LAPT — London Academy of Professional Training

CURRICULUM

1 ISO BLD Foundation 7 chapters · 42 classes 100 marks	
• 4 Clause 4: Context of the Organisation — 6 classes › Identifying Key Stakeholders in Fire Detection Systems › Defining Organisational Context for Fire Alarm Implementation › Mapping Interested Parties in ISO 7240BAC Compliance › Establishing Scope for Fire Detection Management Systems › Understanding Management System Boundaries in Fire Safety › Evaluating External Influences on Fire Detection Strategies • 5 Clause 5: Leadership — 6 classes › Understanding Leadership Commitment in Fire Detection Systems › Developing Effective Policies for Alarm System Management › Defining Roles and Responsibilities in Fire Safety Operations › Establishing Authority Structures for Fire Alarm Compliance › The Importance of Leadership in Fire Safety Culture › Integrating Leadership Strategies with ISO 7240BAC Requirements • 6 Clause 6: Planning — 6 classes › Identifying Risks in Fire Detection Systems › Opportunities for Improvement in Alarm System Planning › Setting Objectives for Effective Fire Safety › Strategic Planning for Fire Alarm Integration › Assessing Compliance with ISO 7240BAC Requirements › Implementing Risk Management in Fire Safety Planning • 7 Clause 7: Support — 6 classes › Resources for Effective Fire Detection System Support › Establishing Competence in Fire Alarm System Management › Promoting Awareness of Fire Safety Standards › Effective Communication Practices for Fire Alarm Systems › Documented Information Requirements in Fire Safety Protocols › Building a Culture of Safety Awareness in Fire Systems	• 8 Clause 8: Operation — 6 classes › Understanding Operational Planning in Fire Detection Systems › Developing Control Strategies for Alarm Systems › Implementing Standard-Specific Requirements in Fire Operations › Ensuring Compliance in Operational Procedures for Alarms › Monitoring and Reviewing Fire Detection Operations Effectively › Emergency Response Protocols within ISO 7240BAC Framework • 9 Clause 9: Performance Evaluation — 6 classes › Monitoring Fire Detection Systems Performance in Buildings › Measurement Techniques for Fire Alarm Systems Evaluation › Analysing Data from Fire Detection and Alarm Systems › Conducting Internal Audits for Fire Safety Compliance › Evaluating Effectiveness of Fire Alarm Management Reviews › Implementing Continuous Improvement for Fire Detection Systems • 10 Clause 10: Improvement — 6 classes › Identifying Nonconformity in Fire Detection Systems › Implementing Corrective Actions for Alarm Failures › Evaluating Effectiveness of Fire Safety Measures › Strategies for Continual Improvement in Alarm Systems › Documentation and Reporting of Nonconformities in Buildings › Meeting Regulatory Requirements through Corrective Actions

• CH1 Understanding ISO 7240BAC Requirements — 6 classes

- › Overview of ISO 7240BAC Standard
- › Key Terms and Definitions in Fire Safety
- › Scope and Applicability of the Standard
- › Compliance Expectations for Organisations
- › Understanding Fire Detection and Alarm Systems
- › Interpreting ISO 7240BAC Documentation Requirements

• CH2 Conducting a Gap Analysis — 6 classes

- › Identifying Current Fire Safety Practices
- › Evaluating Existing Alarm Systems Against Standards
- › Assessing Regulatory Compliance Gaps
- › Tools and Techniques for Gap Analysis
- › Reporting Findings and Recommendations
- › Prioritising Areas for Improvement

• CH3 Project Planning for Implementation — 6 classes

- › Developing a Comprehensive Implementation Plan
- › Defining Roles and Responsibilities
- › Setting Achievable Milestones and Deadlines
- › Resource Allocation and Budgeting
- › Risk Management in Project Planning
- › Communication Strategies for Stakeholder Engagement

• CH4 Documentation and Record Keeping — 6 classes

- › Creating Essential Documentation for Compliance
- › Maintaining Records of Fire Safety Training
- › Document Control Processes in Implementation
- › Best Practices for Internal Reporting
- › Guidelines for Evidence of Compliance
- › Preparing for Management Reviews and Audits

• CH5 Conducting Internal Audits and Reviews — 6 classes

- › Developing an Internal Audit Plan
- › Executing Internal Audits for ISO Compliance
- › Identifying Non-Conformities and Areas for Improvement
- › Analyzing Audit Findings and Reporting
- › Conducting Management Reviews Effectively
- › Preparing for External Certification Audits

• CH1 Understanding ISO 7240BAC and Its Applications — 6 classes

- › Introduction to ISO 7240BAC Standards
- › Key Components of Fire Detection Systems
- › Interpretation of Fire Alarm System Requirements
- › Regulatory Framework for Fire Safety in Buildings
- › Case Studies on ISO 7240BAC Implementation
- › Aligning ISO Standards with Industry Practices

• CH2 Integrating ISO Skills into Industry Sectors — 6 classes

- › Identifying Target Industry Sectors
- › Bridging Gaps: ISO Standards and Industry Needs
- › ISO 7240BAC in Commercial vs. Residential Settings
- › Best Practices for Sector-Specific Applications
- › Developing ISO Skill Sets for Practitioners
- › Leveraging ISO Knowledge for Industry Advancement

• CH3 Building Your Consultant Brand in ISO Sector — 6 classes

- › Crafting a Unique Consultant Identity
- › Marketing Strategies for ISO Consultants
- › Developing a Value Proposition in Fire Safety
- › Networking and Building Industry Relationships
- › Effective Communication of ISO Benefits
- › Creating Thought Leadership in Your Niche

• CH4 LAPT Partner Framework for Consultants — 6 classes

- › Overview of the LAPT Partner Framework
- › Benefits of Collaboration in Consulting
- › Establishing Partnerships for Enhanced Services
- › Navigating the LAPT Partner Landscape
- › Creating Value Through Strategic Alliances
- › Maintaining Partner Relationships for Sustainability

• CH5 Client Advisory Services in Fire Safety Consulting — 6 classes

- › Understanding Client Needs and Expectations
- › Delivering Comprehensive Advisories on ISO Standards
- › Risk Assessment in Fire Detection Systems
- › Tailoring Solutions for Diverse Clientele
- › Evaluating Client Feedback for Continuous Improvement
- › Building Long-term Client Relationships through ISO Expertise
