Reference SSR-DMS-13943 • ISO Security Safety & Risk

UKPRN 10067351 • Registered in England and Wales, company 4984798

AT A GLANCE

REFERENCE	SSR-DMS-13943
AWARD	Certificate
ASSESSMENT	430 marks — 258 to pass (60%)
PREREQUISITES	None
VALIDITY	Lifetime
AWARDING BODY	LAPT — London Academy of Professional Training

CURRICULUM

1

Communication in Safety Management

5 chapters · 30 classes 45 marks

• 1 Understanding Fire Safety Vocabulary in Communication — 6 classes

› 1.1 Define Key Fire Safety Terms for Effective Communication

› 1.2 Explore the Importance of Standardized Vocabulary in Safety Management

› 1.3 Identify Common Misunderstandings in Fire Safety Language

› 1.4 Apply Fire Safety Vocabulary in Real-Life Scenarios

› 1.5 Develop Clear Communication Strategies Using Fire Safety Terminology

› 1.6 Evaluate the Impact of Effective Communication on Fire Safety Outcomes

• 2 The Role of Communication in Risk Assessment and Management — 6 classes

› 2.1 Identify Key Communication Barriers in Risk Management

› 2.2 Analyze the Impact of Effective Communication on Safety Outcomes

› 2.3 Explore Communication Models Relevant to Risk Assessment

› 2.4 Develop Communication Strategies for Safety Leadership

› 2.5 Implement Clear Communication Channels During Risk Assessment

› 2.6 Evaluate the Role of Feedback in Risk Management Communication

• 3 Developing Effective Communication Strategies for Safety Training — 6 classes

› 3.1 Identify Key Communication Barriers in Safety Training

› 3.2 Define Effective Communication Objectives for Safety Messaging

› 3.3 Develop Engaging Training Materials for Diverse Audiences

› 3.4 Utilize Active Listening Techniques in Safety Discussions

› 3.5 Implement Feedback Mechanisms to Enhance Training Effectiveness

› 3.6 Evaluate and Adjust Communication Strategies Based on Participant Response

• 4 Crisis Communication Protocols in Fire Safety Management — 6 classes

› 4.1 Identify Key Elements of Crisis Communication in Fire Safety Management

› 4.2 Understand the Importance of Timely Information Dissemination

› 4.3 Develop Effective Communication Strategies for Fire Emergencies

› 4.4 Explore Best Practices for Engaging Stakeholders During a Crisis

› 4.5 Analyze Case Studies on Successful Crisis Communications in Fire Incidents

› 4.6 Create a Crisis Communication Plan Tailored for Fire Safety Scenarios

• 5 Evaluating Communication Effectiveness in Fire Safety Practices — 6 classes

› 5.1 Identify Key Communication Barriers in Fire Safety

› 5.2 Assess the Role of Leadership in Safety Communication

› 5.3 Analyze Effective Communication Strategies for Fire Safety

› 5.4 Develop Clear Messages for Fire Safety Protocols

› 5.5 Evaluate Feedback Mechanisms in Fire Safety Practices

› 5.6 Implement Communication Improvements in Fire Safety Training

• 1 Understanding Fire Safety Vocabulary and Concepts — 6 classes

- › 1.1 Define Key Fire Safety Terms
- › 1.2 Identify Types of Fire Hazards
- › 1.3 Explain the Fire Triangle Model
- › 1.4 Discuss Fire Prevention Strategies
- › 1.5 Describe Fire Response Procedures
- › 1.6 Apply Fire Safety Vocabulary in Case Scenarios

• 2 Principles of Fire Behavior and Dynamics — 6 classes

- › 2.1 Define Key Concepts of Fire Behavior
- › 2.2 Explore the Fire Triangle and its Components
- › 2.3 Analyze the Stages of Fire Development
- › 2.4 Examine the Role of Heat Transfer in Fire Dynamics
- › 2.5 Investigate Factors Affecting Fire Spread and Growth
- › 2.6 Apply Fire Behavior Principles to Real-World Scenarios

• 3 Fire Risk Assessment and Management — 6 classes

- › 3.1 Identify Key Components of Fire Risk Assessments
- › 3.2 Analyze Common Fire Hazards in Various Environments
- › 3.3 Evaluate the Impact of Fire Risk on Safety Management
- › 3.4 Develop Mitigation Strategies for Identified Risks
- › 3.5 Implement Fire Safety Measures and Protocols
- › 3.6 Review and Revise Fire Risk Assessment Procedures

• 4 Fire Protection Systems and Their Applications — 6 classes

- › 4.1 Define Fire Protection Systems and Their Components
- › 4.2 Identify Different Types of Fire Detection Systems
- › 4.3 Explain the Functionality of Fire Suppression Systems
- › 4.4 Compare Active vs. Passive Fire Protection Strategies
- › 4.5 Assess Fire Protection System Applications in Various Environments
- › 4.6 Evaluate the Effectiveness of Fire Protection Systems in Case Studies

• 5 Legal Requirements and Best Practices for Fire Safety — 6 classes

- › 5.1 Identify Key Legal Frameworks in Fire Safety
- › 5.2 Analyze Regulations Impacting Fire Safety Practices
- › 5.3 Evaluate Responsibilities of Fire Safety Compliance Officers
- › 5.4 Examine Best Practices for Fire Risk Assessments
- › 5.5 Develop Fire Safety Policies Aligned with Legal Standards
- › 5.6 Implement Effective Training Programs for Fire Safety Awareness

• 1 Introduction to ISO 13943 and Fire Safety Vocabulary — 6 classes

- › 1.1 Define Key Terms in Fire Safety Vocabulary
- › 1.2 Explore the Structure of ISO 13943 Framework
- › 1.3 Analyze the Importance of Standardized Fire Safety Language
- › 1.4 Identify Common Fire Safety Scenarios and Vocabulary Use
- › 1.5 Demonstrate Application of ISO 13943 Terms in Fire Safety Procedures
- › 1.6 Evaluate Case Studies Using ISO 13943 Fire Safety Vocabulary

• 2 Understanding the Framework of ISO 13943 — 6 classes

- › 2.1 Explore the Fundamental Concepts of ISO 13943
- › 2.2 Identify Key Terms and Definitions in Fire Safety
- › 2.3 Analyze the Structure and Components of the ISO 13943 Framework
- › 2.4 Examine the Role of ISO 13943 in Fire Safety Leadership
- › 2.5 Discuss the Importance of Standardization in Fire Safety Vocabulary
- › 2.6 Apply ISO 13943 Framework Principles to Real-World Scenarios

• 3 Key Concepts in Fire Safety Management — 6 classes

- › 3.1 Define Key Concepts in Fire Safety Management
- › 3.2 Identify Roles and Responsibilities in Fire Safety
- › 3.3 Explain the Importance of Risk Assessment in Fire Safety
- › 3.4 Analyze Common Fire Hazards and Their Implications
- › 3.5 Develop Effective Fire Safety Plans and Procedures
- › 3.6 Evaluate Fire Safety Management Practices in Various Settings

• 4 Application of ISO 13943 in Domestic Safety Protocols — 6 classes

- › 4.1 Define Key Terminology in ISO 13943
- › 4.2 Explore the Framework of ISO 13943
- › 4.3 Identify Domestic Safety Protocols Relevant to ISO 13943
- › 4.4 Analyze Case Studies on ISO 13943 Applications in Homes
- › 4.5 Develop a Home Safety Checklist Based on ISO 13943 Standards
- › 4.6 Evaluate the Effectiveness of ISO 13943 in Preventing Domestic Fires

• 5 Evaluating Compliance and Continuous Improvement — 6 classes

- › 5.1 Assess Compliance with ISO 13943 Standards
- › 5.2 Identify Key Performance Indicators for Fire Safety
- › 5.3 Conduct a Self-Audit on Fire Safety Practices
- › 5.4 Analyze Data to Measure Fire Safety Compliance
- › 5.5 Develop an Action Plan for Continuous Improvement
- › 5.6 Implement Feedback Mechanisms for Ongoing Evaluation

• 1 Understanding Safety Culture and Its Importance in Leadership — 6 classes

- › 1.1 Define Safety Culture and Its Components
- › 1.2 Explore the Characteristics of Effective Safety Cultures
- › 1.3 Identify the Role of Leadership in Shaping Safety Culture
- › 1.4 Analyze the Impact of Safety Culture on Organizational Performance
- › 1.5 Develop Strategies for Enhancing Safety Culture within Teams
- › 1.6 Create an Action Plan for Leadership-Driven Safety Culture Improvement

• 2 Key Leadership Roles in Promoting Safety Culture — 6 classes

- › 2.1 Define Key Leadership Roles in Safety Culture
- › 2.2 Identify Leadership Behaviors That Foster Safety
- › 2.3 Explore the Impact of Leadership on Team Safety Perception
- › 2.4 Develop Strategies for Influencing Safety Culture
- › 2.5 Role-Play Scenarios for Leadership in Safety
- › 2.6 Evaluate Leadership Effectiveness in Promoting Safety Culture

• 3 Communication Strategies for Cultivating Safety Culture — 6 classes

- › 3.1 Identify Key Elements of Effective Safety Communication
- › 3.2 Analyze Barriers to Communication in Safety Culture
- › 3.3 Develop Active Listening Techniques for Safety Leadership
- › 3.4 Implement Feedback Mechanisms to Enhance Safety Dialogue
- › 3.5 Tailor Safety Messages for Diverse Audiences
- › 3.6 Create an Action Plan for Promoting Safety Communication

• 4 Implementing Safety Policies and Procedures — 6 classes

- › 4.1 Analyze Current Safety Policies and Procedures
- › 4.2 Identify Key Stakeholders in Safety Implementation
- › 4.3 Develop Clear Communication Strategies for Safety Initiatives
- › 4.4 Create a Safety Training Plan for Staff Engagement
- › 4.5 Evaluate the Effectiveness of Safety Procedures
- › 4.6 Foster a Continuous Improvement Culture in Safety Practices

• 5 Monitoring and Sustaining an Effective Safety Culture — 6 classes

- › 5.1 Identify Key Metrics for Safety Culture Assessment
- › 5.2 Analyze Current Safety Culture Data
- › 5.3 Engage Team Members in Safety Culture Discussions
- › 5.4 Develop Action Plans Based on Safety Culture Insights
- › 5.5 Implement Continuous Improvement Strategies for Safety Culture
- › 5.6 Evaluate the Impact of Changes on Safety Culture

• 1 Understanding ISO 13943 and Its Importance in Regulatory Compliance — 6 classes

- › 1.1 Define and Explain ISO 13943 Terminology
- › 1.2 Identify Key Components of Fire Safety Vocabulary
- › 1.3 Examine the Role of ISO 13943 in Regulatory Compliance
- › 1.4 Assess the Importance of Standardized Fire Safety Language
- › 1.5 Analyze Case Studies Demonstrating Compliance with ISO 13943
- › 1.6 Develop a Strategy for Implementing ISO 13943 in Your Organization

• 2 Key Terminologies and Concepts in Fire Safety Compliance — 6 classes

- › 2.1 Define Essential Fire Safety Terminology
- › 2.2 Identify Regulatory Frameworks in Fire Safety Compliance
- › 2.3 Explain the Importance of ISO 13943 in Fire Safety Practices
- › 2.4 Analyze Key Fire Safety Concepts for Risk Assessment
- › 2.5 Apply Legislative Requirements to Fire Safety Planning
- › 2.6 Evaluate Compliance Strategies for Fire Safety Management

• 3 Regulatory Framework and Its Application in Domestic Safety — 6 classes

- › 3.1 Define Key Terms in Regulatory Compliance
- › 3.2 Describe the Regulatory Framework for Domestic Safety
- › 3.3 Analyze the Role of ISO Standards in Fire Safety
- › 3.4 Identify Common Domestic Fire Hazards
- › 3.5 Evaluate Compliance Strategies for Home Safety
- › 3.6 Implement a Fire Safety Plan for Domestic Environments

• 4 Implementing Compliance Strategies in Domestic Settings — 6 classes

- › 4.1 Understand Compliance Regulations for Domestic Fire Safety
- › 4.2 Identify Key Fire Safety Vocabulary and Terminology
- › 4.3 Assess Domestic Fire Risks and Hazards
- › 4.4 Develop a Fire Safety Compliance Strategy for Homeowners
- › 4.5 Implement Fire Safety Measures in Domestic Environments
- › 4.6 Review and Adapt Compliance Strategies for Continuous Improvement

• 5 Evaluating and Improving Compliance Strategies — 6 classes

- › 5.1 Identify Key Compliance Requirements in ISO 13943
- › 5.2 Analyze Existing Compliance Strategies for Effectiveness
- › 5.3 Evaluate Compliance Gaps and Areas for Improvement
- › 5.4 Develop Action Plans to Enhance Compliance Processes
- › 5.5 Implement Best Practices for Ongoing Compliance Monitoring
- › 5.6 Review and Adapt Compliance Strategies Based on Feedback

• 1 Understanding Risk Management Principles in Domestic Safety —

6 classes

- › 1.1 Define Key Terms in Domestic Risk Management
- › 1.2 Identify Common Household Hazards and Risks
- › 1.3 Assess Risk Levels in Domestic Settings
- › 1.4 Explore Fire Safety Regulations Relevant to Homes
- › 1.5 Develop a Personal Risk Management Plan for Home Safety
- › 1.6 Evaluate and Improve Home Safety Practices

• 2 Identifying Hazards and Risks in the Domestic Environment —

6 classes

- › 2.1 Recognize Common Domestic Hazards in Fire Safety
- › 2.2 Assess Risks Associated with Identified Hazards
- › 2.3 Analyze the Impact of Domestic Fires on Health and Safety
- › 2.4 Evaluate Preventative Measures for Domestic Fire Risks
- › 2.5 Create a Fire Safety Action Plan for the Home
- › 2.6 Implement Fire Safety Procedures in Domestic Settings

• 3 Analyzing and Evaluating Risks in Household Scenarios —

6 classes

- › 3.1 Identify Common Household Risks
- › 3.2 Assess Risk Levels Using a Risk Matrix
- › 3.3 Analyze Fire Hazard Scenarios in the Home
- › 3.4 Evaluate the Effectiveness of Current Safety Measures
- › 3.5 Develop a Personal Household Risk Management Plan
- › 3.6 Present Findings and Recommendations for Risk Mitigation

• 4 Implementing Risk Control Measures for Domestic Safety —

6 classes

- › 4.1 Identify Common Domestic Risks and Hazards
- › 4.2 Assess Risk Levels in Household Environments
- › 4.3 Develop Effective Risk Control Strategies
- › 4.4 Implement Preventative Measures for Fire Safety
- › 4.5 Evaluate the Effectiveness of Risk Control Measures
- › 4.6 Create a Household Emergency Response Plan

• 5 Monitoring and Reviewing Risk Management Practices —

- › 5.1 Identify Key Components of Risk Management Practices
- › 5.2 Assess Current Risk Management Strategies Effectiveness
- › 5.3 Analyze Common Monitoring Methods for Risk Management
- › 5.4 Develop Criteria for Reviewing Risk Management Practices
- › 5.5 Implement Continuous Improvement Procedures in Risk Management
- › 5.6 Evaluate Outcomes and Adapt Risk Management Practices Accordingly
